

Empower business travelers and reward them for making cost-conscious decisions.

The new employee benefit that can save your company millions of dollars.

Tripkicks rewards business travelers for making cost saving travel decisions. Built as a highly configurable platform, our proprietary algorithm uses a combination of company-specific negotiated rates and fares, travel policies, and historical booking patterns to calculate real-time business trip budgets. When business travelers spend under budget, they can select a variety of meaningful rewards.

ZERO SET-UP FEES

Tripkicks fees are based on a percentage of savings, so there is a fractional cost only when you save money.

INTEGRATED

Works alongside travel management companies, online booking tools, and expense management systems, including SAP Concur.

REAL-TIME REPORTING

Reporting on savings, traveler behavior, rewards redemption and adoption.

An integrated and flexible platform deployed by travel and expense experts.

Overall setup and calibration of budget is based on company preferences, requirements, and negotiated fares. Companies can select how their travelers can earn rewards, along with tailored redemption options of cash, charity, and a wide variety of egift cards.

We are experts in T&E software implementations & change management. Allow our team to guide you through a fun and successful project. It is not every day you can deploy change your travelers will love.

SAP® Concur® Partner

SAP Concur integration provides travelers with an even more rewarding experience.

The screenshot displays the SAP Concur interface for a flight search. At the top, it shows the trip summary for 'NEW YORK, NY TO CHICAGO, IL' on 'MON, OCT 15 - TUE, OCT 16'. The flight details include: Round Trip, JFK - ORD, Depart: Mon, 10/15/2018, Return: Tue, 10/16/2018. The flight search results show two JetBlue flights: 08:39a JFK → 10:17a ORD (Nonstop, 2h 38m, \$367.40) and 10:57a ORD → 02:02p JFK (Nonstop, 2h 05m, \$367.40). The total flight budget is \$564.40. The interface also includes a 'Previous Searches' section and a 'Change Flight Search' section with fields for From, To, Depart, and Return.

- ✦ Budgets appear within Concur Travel, and reservations booked in Concur Travel are automatically integrated into Tripkicks.
- ✦ Concur Expense integration automates the reconciliation and release of rewards with approved Concur Expense entries being automatically matched against entries in Tripkicks.
- ✦ Companies can integrate Tripkicks with Concur Travel, Concur Expense, or both.
